"Century Spire is an unbelievable project. It is one of the best and most sophisticated projects for me to work on. Century Spire is going to be a unique tower - no one has ever done it at all like this."

INTERIOR DESIGN STUDIO

"If the architect's aim is to create remarkable spaces, then it is my aim to bring this to life through my interior design aesthetic.

I am very pleased to be partnering Armani/Casa with the Century Spire project, and believe that the combination of Daniel Libeskind's unique vision and my own will result in a truly remarkable place to live and experience, full of elegance, wonder and comfort."
